FINANCIAL AND COMMERCIAL.

MONEY MARKET. FRIDAY, Jan. 5-6 P. M.

The stock market was quite active and buoyan The steek market was quite active and buoyant to-day. Every steek on the list improved, and the disperition to buy was pretty general. From the opening to the close the tendency was upward, and the advance seeme i to possess considerable strength-Yirginia 6's went up \(\frac{1}{2}\) per cent; Indiana 5's, 1; Binois Central Bonds, 1; Delaware and Hudson, 1\(\frac{1}{2}\); Cumberland, \(\frac{1}{2}\); Canton Company, \(\frac{1}{2}\); Nicaragua Transit, \(\frac{1}{2}\); New York Central Railroad, 1; Eric Railroad, \(\frac{1}{2}\); Hudson River, \(\frac{1}{2}\). Galena and Chicago Railroad sold at 80 a 80\(\frac{1}{2}\) per cent. Michigan Central and Chicago and Rock Island were firm at previous quotations. State stocks were sold to some extent na. State stocks were sold to some exten o-day. A sale of Erie Bonds, of '83 was made at 79, seller twelve months—probably by some san guine bear. New York Central Bonds are now selling at one per cent below the current price fo each, and the latter draws the present year eight per cent in seven per cent bends at par. It has been reported that the Nicaragua Transit Company were largely interested in the Kinney Mosquito Expedi-tion, but it is officially contradicted. It is not interested as a company, neither are its maninterested as a company, neither are its managers or directors interested individually in the land project of Col. Kinney and his associates. The Transit Company confines its operations entirely to the transportation of passengers to and from California. It can make money enough to pay its stockholders good dividends in that business, withcut engaging in doubtful enterprises, either in Mosquito or elsewhere. There is no doubt but that ccess of the Kinney expedition would be of great benefit to the Nicaragua Transit Company by giving it a large amount of business, and enancing the value of its landed property on the Isthmus. It has therefore been considered the wisest pelicy to keep clear of all political entangle ments, and confine themselves entirely to their siness. The market value of Erie is sustained upon the probability of the new loan being filled up. Bids have already been put in for an amount nearly equal to that required, and it will without doubt be announced on the 10th inst.—the day fixed for opening the bids—that the entire lean has been taken, and that bids were put in for a much larger sum. This we are prepared for, and hope we shall not be disappointed. As soon as the rate is fixed for the new loan, we shall be able to figure out the result. In the meantime, the market value of the stock will probably appreciate, and become quite active. The sales at the first Board today amounted to more than three thousand shares The funds placed in the hands of Mesers. Wad-

worth & Sheldon by the State of Illinois, for the payment of interest on its debt, were the accumulation of several months. There was an understands ing with the State Treasurer that the use of the ervices rendered in making transfers, paying divi-ends, &c. An open account between the parties was kept, which was sometimes largely in favor and metimes against the State Treasurer. The im-session which has gone abroad, that Messrs. Wadsorth & Sheldon received the amount from the State few days before the interest became due, in one emittance, is erroneous. In accordance with an express agreement with the State authorities, the firm had made use of the funds long before it had ment in justice to Messrs. Wadsworth & Sheldon but we must condemn the system, practised by pri vate banking houses in this and other cities to such an extent, of using trust funds placed in their hands or special purposes.

 After the adjournment of the board the following des of bonds and stocks were made at auction:-

As the second board the market was pretty well estained. Nicaragua Transit advanced # per cent. Domberland, #; Missouri 6's, #; Hudson Railroad, #; Galena and Chicago Railroad, 3. There was an offer of 85 per cent for 100 shares of Galena and

Chicago, without finding a seller. The absurd panic in this stock has nearly subsided. The legality of the sales made jesterday at 70 per cent will be The New York Central Railroad Company have declared a semi-annual dividend of four per cent,

which, with the dividen i declared last August, will be paid in the company's certificates at par, convertible into seven per cent convertible bonds when presented in suitable sums. This will about use pany have been so long trying to sell.

According to the annual report of the Sixth Ave-gue Railroad Company, the receipts for the sleven months ending with the lat of January were \$223,690 39, and the expenses \$188,463 73, showing a net profit of \$35,226 66. Adding the estimated profits of the present month, and the balance on hand at the commensument, the amount are like for dividends of the year will be \$41,639, of which \$26,250 were appropriated to the August dividend. The cost of the road amounts to \$776,226 50, which is represented by \$750,000 capital, \$4,780 balance of morgages, and \$21,486 50 borrowed from the

The Board of Trustees of the Illinois and Michigan Caral bare resolved (instead of the payment of one-half of the 'coupons due January 1, 1847, as previously advertised,) to pay the full amount of the coupons due January 1, 1847; also, to pay in full the conpone ine July lat, 1847. The coupons to be

paid are on the registered canal bonds only. The rears of interest on the registered evidences of in-btedness of the canal, will also be paid up to the 1st day of July, 1847. The payment will be made by D. Leavitt, treasurer, at the American Exchange Bank, on presentation of the bonds and evidence

The last annual report of the Fitchburg and Wor cester Railroad Company says that the total earn ings of the past year were \$42,647 83; total cost o ings of the past year were \$42,647 83; total cost of working the road, \$19,250 09; net carnings, \$23,. 397 74; paid interest and dividends, \$13,615 12—leaving balance of \$9,782 62. The increase of carnings was \$6,411 89, while the increase of the expenses was only \$1,345 46. The earnings of the road have been sufficient to pay six per cent of the debt, and nine per cent on all outstanding stock, if, as has been customary with most railroad managements, no allowance was made for, depreciation; deducting that allowance, the balance is sufficient to ments, no anowance was made for depreciation; deducting that allowance, the balance is sufficient to pay six per cent on both classes of preferred stock. On the 1st of November last, the whole bonded debt of the read, amounting to upwards of \$60,000, fel due; a large number of the old bondholders took bonds at par in exchange; \$4,000 old bonds are now outstanding, and money was obtained to

pay the balance, at six per cent interest.

By the foregoing it will be seen that besides paying enough to meet the entire interest upon the State debt each year, for the past two years, there bas been paid and applied upon the arrearages of interest and the principal of the debt, the sum of \$2,750,037 96, being the sum of \$1,375,018 98 each year, over and above the accroing interest, making

two years, the sum of \$3,950,037 96.

The Governor says:—In my message to the General Assembly, at their regular session, Jan. 10, 1853, I based a calculation that if the taxes were kept at the same recent on the dollar for various Carter and the increase of taxable property in the State each year be ten per cent, that, with the other valuable assets of the State applied, in eleven years from that time the State debt would be reduced to \$74,080 62. I am pleased to inform you that the past two years the increase of taxable property, after making all abatements for errors, &c., was, in 1853 over 1852, 8fty-one per cent, and the increase on all taxable property for 1854 over 1853, (no lands being taxable only once in two years, except those sold after one assessment and previous to the next, and the personal property,) is about 14 4-9 per cent, making an average increase of the taxable property of the State for the last two years 32 per cent instead of 10 per cent, as assumed in the calculation referred to. I think we can reasonably expect an increase of at least 20 per cent a year for the next few years on all taxable property of the State. Should this supposition prove true, and the taxes remain as now fixed by law, and the avails regularly applied to its extinguishment, the debt would be paid much sooner than assumed. I have no doubt but the resignts from the Central Railroad and branches will far exceed the amount of \$114.000 per year as stated in the calculation of \$11.000 per year as stated in the calculation of \$11.000 per year as stated in the calculation of \$11.000 per year as stated in the calculation of \$11.000 per year as stated in the calculation of \$11.000 per year as stated in the calculation of \$11.000 per year as stated in the calculation in the calculation of \$11.000 per year as stated in the calculation in the calculation of \$11.0000 per year as stated in the calculation of \$11.0000 per year as stated in the calculation from the Central Railroad and branches will far exceet the amount of \$114,000 per year, as stated in the calcu

and sperm were unchanged.

Provisions.—There was a rapid and severe decline in
old mess pork, with large sales. About 3,000 bbls.,
chiefly mess, changed hands, opening at 312 37, and
flaving off at \$11 87, including some lots of prime, at
\$12. Beef—sales of about 500 bbls. were made at uncharged prices. Considerable lots, it was said, were
being shipped to England on owners' account.

changed prices. Considerable loss, it was said, were being shipped to England on owners' account.

Rick.—Sales of 120 tierces were made at \$3.75 = \$4.37 per 100 los.

Salt.—The market is unsettled. A cargo of 1,300 sacks of Ashton's and 1,400 Worthington salt was sold at greatly reduced prices; but a cargo of 1,500 ground, and 3,600 sacks of firities & Darry's salt it said to have since been sold at an advance. Complaint was made yesterday by a dealer in the article, that a moraling paper of the 5th had stated that an importer refused an offer from the largest dealer in salt of \$1.75 or 1,800 sacks of Ashton's, and afterwards sold it at auction for \$1.67%, which the contemporary paper applauds as a very important and business-like affair. The person referred to thought that, the importer would have done better for his own interest to have accepted the first offer.

Sugar.—The sales included about 500 hids. New Orleans, including common to medium quality, at 4%c. a 4%c., and good to prime at bc. a 5%c.

Tallow was firm at 12%c, for city rendered.

Wool.—This article continues still very dull. The sales this week have been mostly of domestic fleece of the finer grades, and we notice \$0,000 lbs. have changed hands, on private terms, supposed at four months, adding interest; and 50,000 lbs. common to half blood, at 28c. to 35c., cash. In foreign, the market exhibits no change and we have nothing to report. At auction, on the 4th instant, 30 bales damaged unwashed mestigio brought 2%c. to 6%c., cash.

Whiskey.—Sales of about 400 bbls. State prison were made at 36%c. a 36%c., with a small lot at 57c.

Family Marketing. RETAIL PRICES OF PARM PRODUCE AT WASHINGTON

produce show an increase over last week. There is apparently a large quantity of meat, poultry and vegetabl on hand, and sales, especially of meats, are light, yet the prices continue inordinately high.

Meat has advanced two and three cents a pound on the most commonly used varieties. Cattle were twelve dol-lars a hundred last market day. This accounts in a measure for the increased price; but the fact that sales are light, people preferring to use fish, will doubtless eventually reduce its value. Of poultry there is considerable of the poorer Western

varieties, but of good Jersey fowl there is very little in market. Prices continue quite high.
Fish shows an increase, as does also nearly every kind

of regetable, with the exception of potatoes, which could Apples are scarce, and the prices, of course, are quite
